

Chapter #3 Quiz

Name: _____

Date: _____

Knowledge	Application	Thinking	Communication
/4	/2	/2	/4

1. State the domain of the following [**A – 2**] [**T – 2**]

a. $f(x) = \frac{5}{x^2 + x + 2}$

b. $f(x) = -\frac{3}{6x - 2x^2}$

2. Given the function $f(x) = \frac{1}{2x^2 - x - 15}$. State its domain, range, x- and y-intercepts, asymptotes and end-behaviour then graph this function. [**K – 4**] [**C – 4**]
